Education

B.Tech in Computer Science and Engineering **2023 – 2027**
Jawaharlal Nehru Government Engineering College, Sunder Nagar
Himachal Pradesh Technical University, Hamirpur

Senior Secondary (Class XII), CBSE **2020 – 2022**
D A V Public School, Ghumarwin, Bilaspur, Himachal Pradesh

Experience

IIT Mandi **June 2026 – July 2026**
Machine Learning & Computer Vision Internship Trainee

- Developed a lightweight video-classification module to distinguish educational from non-educational content, filtering irrelevant videos before computationally expensive multimodal processing.
- Engineered nine normalized visual features, including OCR-based text density, temporal frame similarity, motion patterns, and educational graphics. Trained a **Logistic Regression** model using **Python, OpenCV, RapidOCR, and EasyOCR** to predict educational probability and provide feature-level scores.

Projects

Real-Time Face Anti-Spoofing and Liveliness Detector **GitHub**
Python, PyTorch, OpenCV, Ultralytics YOLOv8

- Built a real-time face anti-spoofing system that classifies detected subjects as **living** or **spoof** using deep-learning-based facial analysis and computer vision.
- Implemented depth-based spatial analysis and variance-driven techniques to distinguish flat surfaces, such as screens, posters, and printed images, from real-world subjects.

ScureLocalAI – Offline Document QA Assistant **GitHub**
Python, FastAPI, ChromaDB, Ollama, RAG

- Building a privacy-focused, offline knowledge assistant that processes PDFs and other documents, creates local embeddings, and retrieves relevant information using **ChromaDB** and **Ollama**-powered retrieval-augmented generation.
- Implementing source-grounded question answering with local LLM inference, with planned extensions for image-first document understanding, image–text relationships, section-aware retrieval, and context highlighting.

Technical Skills

Languages: C++, Python, JavaScript, SQL
Web Technologies: HTML, CSS, React.js, Node.js
Data Analysis: NumPy, Pandas, Matplotlib
Tools: Git, GitHub, VS Code, LaTeX
Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS

Certifications

NPTEL Online Certification – Data Structures and Algorithms Design **Credential**
Completed the course with a score of 62%.

Achievements

- **Algoverse 2.0 – Competitive Programming:** Won an intra-branch algorithmic coding competition organized by CSES, demonstrating problem-solving and teamwork under time constraints.
- **Volleyball – Team Captain:** Led the team to victory in the intra-branch volleyball competition twice.
- **Leadership:** Serving as **Social Media Secretary** at CSES, managing official social media handles and coordinating event planning and execution.
